

## Mid-Year Progress Report of Activities of Hamlin BCD Given

With the first six months behind them, the current officers of the Hamlin Board of Community Development list several projects completed and a larger amount underway, according to a report released this week by Orville D. Roland, manager.

The civic affairs and the trade development committees have been particularly busy and have a large number of projects either started or in the planning stage.

The complete report as compiled by Roland follows:

### Agriculture and Livestock

This committee is working to provide a permanent show barn for the Jones County Livestock which can be used by the FFA boys in their feeder program. This has been met with much interest and enthusiasm, and is expected to be completed by the end of the year.

The committee recognizes the need for better understanding between farmer and merchant, and is planning a Farmer-Merchant Day with conducted tours of farms and ranches in this area.

In conjunction with this promotion it is being considered to recognize outstanding efforts in the farm and ranch industry, by selecting a Master Farmer from this area each year.

The labor camp is operated under this committee to provide a place where transit laborers may stop overnight and for farmers to contact help for their harvest. Plans are underway to remodel the facilities of this camp and make it more convenient for laborers to stay overnight.

This committee also lends support or opposition to legislation affecting farm and ranch prices, in this area.

### Civic Affairs Committee

This committee set out last year to encourage street paving throughout Hamlin. They worked with the city in getting Avenue A paved up to a point where individuals would not co-operate.

It also planned studies for a Master Plan for Hamlin. The immediate need for such a plan was hastened by requests from highway department, who improvements over long range program. Their traffic and design engineers were studying possibilities of eliminating parking on the highway through town as their next move for relieving congestion downtown. By interest shown by the city in planning to study and design relief traffic arteries, the move was counteracted. This plan was endorsed by the BCD directors and presented to City Council in February. The city council entered the proposal in the minutes, but did not act on the matter pending outcome of city elections in April.

Another paving proposal to finance paving on time-pay-

ment plan was submitted to the committee and received support of BCD. This proposal was submitted to the city council which adopted a resolution to put the proposal into effect. This move will make more paving available to more people and will give city teeth into their ordinances regarding paving on lots of absentee owners and others who stand in the way of community development.

At the same time, this proposal was made to the city council, the Master Plan proposal was again presented, but no action was taken by the city.

The committee studied the need for a city-wide clean up campaign and asked the newly organized Jaycees to take the job of promoting it in Hamlin. As a result, the Jaycees went all-out and did a fine job. They went as far as to name a Miss Beautify of Hamlin and entered Hamlin in the national cleanest town competition.

The committee was asked to study ways and means for improving municipal facilities with special attention to City Manager-Council form of government. It was learned that National Municipal League could provide much information, and the committee wrote and asked for several pamphlets. This information was so valuable that it was recommended that BCD should subscribe to membership in Municipal League.

This material is being studied and evaluated at the present time. It has already given the committee down-to-earth ideas for improving the community under a so called 5

year plan. This may include (1) A Master Plan (2) Establishing planning and zoning commission (3) Adopting modern building codes, electric codes, and plumbing codes, (4) Proposal for Council-Manager in City Administration (5) and Changing City Charter to put on Home Rule basis.

It is estimated that it will take five years to get all phases of the program underway. These steps will align city government with objectives of BCD in developing a better community, attracting more people, creating more jobs, and developing commerce and industry.

After studying and analyzing all this information a hand, this committee will make recommendations to the board of directors as to ways and means by which this city can better utilize its facilities to accommodate its citizens more efficiently and to develop into a more attractive and prosperous community.

This committee submitted a request for application forms to enter the All-American City Award, co-sponsored by National Municipal League and Look Magazine. Contestants must show outstanding civic achievements of benefit to the whole community as a result of "citizen action"—that is, the effort and initiative of a substantial number of citizens working together to improve the community.

The committee was asked to study ways in which citizens could contribute one time to all charities to save untold solicitations and workers conducting campaigns. It was recommended that a United Fund be organized and established to handle most of solicitations.

A Civil Defense program for Hamlin is now being studied and more information on results will be made at a later date.

### The Highway and Transportation Committee

This committee has worked to get the Farm-to-Market Road to Old Glory and plans to invite those people to a ribbon cutting ceremonies when he road is completed the last part of June.

It is also studying traffic and highway approaches to Hamlin with objectives to relieve congestion and design ways and means of promoting more traffic through Hamlin.

One of the ways it can promote travel is by supporting U. S. Highway 83 association, which promotes travel from Canada to Mexico.

The Highway Committee studies legislation of the states highway program and supports the Texas Good Roads Association, which promotes safe travel on all Texas Highways.

This committee also studies rail and motor freight transportation in and out of Hamlin, rates, schedules, connecting points and etc., and inter-

prets data for prospective industrial prospects.

### The Housing Committee

This committee is charged with the responsibility of studying housing needs, determining available rental houses and new comers, locating construction problems, and encouraging further development for more housing in the community.

Plans are being made now to conduct an extensive housing survey to determine the type of construction needed for all incoming groups.

### Industrial development

The industrial Committee co-sponsored industrial essay contest for high school seniors and awarded \$25, \$15, \$10 prizes to first, second, and the third place winners. The first place winner's essay will be entered in the West Texas Chamber of Commerce Essay Contest with a \$250 scholarship for the winner.

The committee is working on an economic survey to determine pertinent data for industrial brochure, listing Hamlin's resources and assets.

It is also studying site locations and areas best suited for industrial development and possibilities of organizing industrial foundation.

Several contacts have been made with industrial prospects this community, but no definite decisions have been reached.

### Membership and Finance

This committee conducted membership campaign and added 100 new members, which See BCD, Page 8

### Twirling Classes To Start Tuesday

Jan Propst of Anson will conduct twirling classes in Hamlin beginning Tuesday at the high school gymnasium.

Miss Propst has had 8 yrs. of twirling experience and has won 100 medals and 60 trophies in contests in Texas, New Mexico, Oklahoma and Wisconsin. She has studied under 17 instructors and has won first in the state contest of the Drum Majorettes of America and second in the state contest of the National Baton Twirling Association.

### Former Resident Purchases Paper

A former resident of Hamlin has recently purchased the Sinton Enterprise and assumed responsibilities there May 1. Donald Bryant, who was editor of the Hamlin Herald for about a year, left here in 1947.

Bryant and his wife and three children moved to Sinton from Rosenberg, where he formerly operated the newspaper there. Mrs. Bryant will also be associated with the Sinton paper.

Randy Brown topped the 15-16, 17 year olds and Larry Stephens was runner-up.

## Mrs. Charles Scott Enrolled In TWU Spanish Workshop

DENTON -- Mrs. Charles Scott is enrolled in a Spanish Workshop being held June 8-24 at Texas Woman's University.

The workshop, directed by Dr. A. Wallace Woolsey of the TWU faculty, is designed to help teachers meet the challenge of the renewed interest in foreign languages. The TWU Foreign Languages Laboratory, featuring the newest electronic equipment, will be used by workshop participants.

Mrs. Scott teaches at Hamlin High School.

## Reunion Planned By Brazos Valley Communities, July 3

Plans are underway for a "friendship" reunion of all residents and former residents of Swenson and the Brazos Valley communities.

The reunion will be held on Sunday, July 3, in the American Legion Hall in Aspermont.

Everyone attending is asked to bring a basket dinner. All residents and former residents of these as well as any others who are interested, are being extended a cordial invitation to attend.

Anyone wishing further information about the reunion is asked to contact either Mrs. Lester Hill or Mrs. Earl Hurst in Aspermont.

Hamlin Board of Community Development, and Jones County Commissioner of Precinct 1.

Citizens of Old Glory and Sagerton are invited to attend a barbecue dinner courtesy of Hamlin business and professional people, which will follow the dedication ceremony.

Guests will also include Jake Roberts, District Highway Engineer of Abilene, and members of the Commissioners Court of Jones and Stonewall Counties.

## DR. SNYDER TO OPEN DENTAL OFFICE HERE

Dr. Robert E. Snyder will move to Hamlin Monday, and will open dental offices formerly occupied by the late Dr. J. W. McCrary.

Dr. Snyder has just completed two years residency in oral surgery at the John Sealy Hospital in Galveston. He and his wife and daughter, Kathy, 5, will live at 152 S. W. Second Avenue. They are members of a Baptist Church.

A graduate of The Western Reserve University School of Dentistry in Cleveland, Ohio, in 1951, he practiced in Cleveland for three years and also served as part time staff member of the School of Dentistry.

In August, 1955, he joined the staff at Baylor Dental College, Dallas, as a full-time faculty member. After one year there he did graduate work in oral surgery at Baylor Dental College.

## Five Juniors Attend Methodist Camp

Four juniors from the First Methodist Church and one from Faith Methodist Church are attending camp this week at Camp Butman, 15 miles south of Merkel.

Leaving Monday and returning Friday, the group includes Randy Morgan, Julia Robb, Eddie Robb and Jim Bonds from First Methodist Church and David Brown from Faith Methodist.

Rev. Edmund W. Robb, pastor of First Methodist Church, is a counselor at the camp for juniors.

Rev. and his wife and children, Sharon, 5, and Richard 3, have been in Hamlin 22 months, coming here from Amarillo. June 26 will be his last Sunday at the local church.

## Lions Club Celebrates Thirtieth Birthday Here

The thirtieth birthday of the Hamlin Lions Club was observed Tuesday evening when the Ladies Night Banquet and installation of officers was held at the Mid West Cooperative Oil Mill guest house.

Dr. D. L. Ligon, vice president at Midwestern University of Wichita Falls, and Lions District Governor elect, installed the officers for 1960-61.

Orville D. Roland was master of ceremonies. The invocation was given by W. T. Johnson. Visitors were introduced by Ed Croan.

Past presidents who were present were recognized by George Campbell. They were L. H. McBride, Jim H. King, B. V. Newberry, Claude Lancaster, Johnson and Donley Williams.

Salute to old monarchs and presentation of awards was by

Donley Williams, retiring president. The late Dr. Joe McCrary, the last surviving charter member, was due a 30-year monarch chevron which was received by Mrs. McCrary. McBride and Newberry received a 20-year monarch chevron. Clarence Bailey, King, Lancaster and Fred C. Smith were presented 15-year monarch chevrons. Ten-year monarch chevrons were given B. O. Bell, Johnson, O. R. Riddle and L. N. Minton.

The Battle of the Sexes was presented in song led by L. H. McBride and Mrs. Willard Maberry.

Dinner music was presented by Mrs. McCrary.

Special guests were Mr. and Mrs. Willard Maberry, Mr. and Mrs. Carl Murrell, Mrs. Joe Culbertson, Mrs. Jack Richey and Mr. and Mrs. Foster Cook. Cook is president of the Ro-

tary Club.

Dr. Ligon installed the following officers: George Campbell, president; Charles Absher, secretary; Ed Croan, first vice-president; E. A. Hewitt, second vice-president; E. G. Holzmann, third vice president; Jerry Howard, treasurer; C. V. Herbert, lion tamer; Orville Roland, tail twister; L. H. McBride, song leader; Mrs. McCrary, pianist and club sweetheart; Fred Smith, Jerry Williams, new directors; Lester Minton and Jerry Howard, carry over directors. Donley Williams, immediate past president, becomes a member of the board of directors.

Dr. Ligon announced that Tom Ward, Zone chairman of Breckenridge, will be the new Deputy District Governor.

Ward was to be here for the banquet Tuesday night, but was unable to attend.

## AUGUST 1 IS DEADLINE TO FILE FOR FREE COTTON CLASSING

Cotton farmers who have not already filed applications to receive free classing service and market information for their 1960 crop have until Aug. 1 to apply for these services.

Applications should be filed with Borden B. Manley, Jr., P. O. Box 2001, Abilene, Texas. Mr. Manley is in charge of the Agricultural Marketing Service's area cotton office which includes 36 Central West Texas counties.

Procedure for preparing and filing applications has been considerably shortened and simplified this season. "However, promptness in filing is necessary, as time is needed for each group to arrange for submitting samples to the classing office," Mr. Manley said.

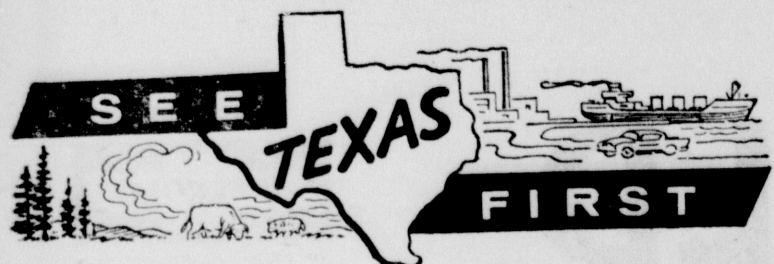

Applications and instructions for applying may be obtained from Mr. Manley's office or

from the county agricultural agent.

Under the free classing service, organized growers learn the grade and staple of each bale of cotton they produce. Through market news they learn what cotton is selling for. These two services put them in better bargaining position when they sell their cotton.

More than 13.7 million bales of cotton, about 95 per cent of the 1959 crop were classed under the Smith-Doxey program last year. This is the largest proportion classed for a any crop since the service became available in 1938.

Mrs. Mattie Richardson of Arlington is visiting her son and his family, Mr. and Mrs. Cecil Richardson, and her brother, Lee Money, and other relatives in Hamlin. She plans to spend a few weeks here.

A huge, sprawling oak tree stands proudly in the middle of a street in Columbus, Texas, west of Houston. It was beneath this tree that Judge Robert M. Williamson (Three Legged Willie) held court in the Third Judicial District of the Republic of Texas, in 1837.

It is related that on one occasion an irate lawyer, who was commanded by Judge Willie to "produce the law" imbedded his dagger in the Judge's table saying, "Here's the law!"

Judge Willie is reported to have laid his pistol calmly on the table with this retort: "Here's the Constitution which overrules the law."

More and more people are enjoying the fine sport and the great fun of fishing in Texas, and savoring their delicious catches at their dinner tables.

Texas' gulf coast is a fabulous "dream come true" for anglers. Many return home with ice chests full of such tasty salt water fish as speckled trout, red snapper, flounder, and many, many others.

The big ones are there too! Fact of the matter is the wor-

ld's record catch in a giant sea bass was made in Galveston Bay. It weighed a mighty 551 pounds.

Everyone, young and old, has read about "Old Rip." He has traveled as a dignitary all over the USA and even visited President Calvin Coolidge in the White House. (Which, incidentally, is pretty good for a little old "Horny Toad.")

What made Old Rip famous? This little horned frog slept for 31 years in a dehydrated state in a little tin box in the corner stone of the courthouse in Eastland, Texas. You can see him today in his plush casket at the Eastland Courthouse and read his fabulous story again.

In the days of the old west, you were a big man if you were quick on the draw with your Colt single-six. Men died with their boots on and were buried the same way at the famous Boothill Cemetery in Tascosa, Texas.

To relive the old west, visit Tascosa, some 25 miles northwest of Amarillo and present site of Cal Farley's Boys Ranch.

An old railroad touring car belonging to Jay Gould, the railroad magnate, now stands as a museum in Jefferson, Texas, in the northeast corner of the state.

When the town council refused him right-of-way for his railroad through the city, in the mid 1900's Gould noted in the hotel register, "This is the end of Jefferson."

But Jefferson still stands and so does the railroad car! Northeast of Crowell, Texas, at the cradle of the Panhandle, is the Peace River Battlefield. It is best known as the spot where a band of Texas Rangers recaptured Cynthia Ann Parker twentyfive years after she was kidnapped by the Comanche Indians in 1836.

Holland Coffee's Trading Post was established in 1837 to barter with the Indians. One of the frequent items the Indians brought in to trade was a white man captive.

The site of this early-day trading post is just 12 miles northwest of Dennison, Texas, near the Red River and the Texas - Oklahoma border.

A Packers and Stockyards Division has been established in USDA's Agricultural Marketing Service.

An item with the President's picture on page two is headed "Roosevelt's Appeal for 7th War Loan."

Mr. and Mrs. G. W. Wain-scott held a family reunion honoring their three grandsons who were home from the service; Weldon Wain-scott of Navy; Garland W. Wain-scott of Marines.

Mrs. Fred Carpenter was hostess to the Hamlin Garden Club Friday afternoon.

Jones County theatres held a drive for polio funds and netted \$442.03 for the "March of Dimes." The theatres were the Ferguson in Hamlin, Palace in Anson and Grand in Stamford. S. G. Hodge of

Stamford was chairman.

Capt. R. A. Dean, former 1940 Pied Piper football player, returned home after 10 months of fighting the Germans, to visit with his mother, Mrs. R. S. Dean.

Pfc. Walter S. Acklin celebrated his 23rd birthday June 12 in the Philippines Marivelses General Hospital. He was in the hospital for treatment for wounds received April 27 on Okinawa. His parents, Mr. and Mrs. C. F. Acklin of Hamlin had not learned of the details on the injury.

The First Baptist Church in Providence, R. I., was founded by Roger Williams in 1638. It was recently restored by a \$500,000 grant from John D. Rockefeller Jr.

## HIGHLIGHTS AND SIDELIGHTS

By VERNE SANFORD  
Texas Press Association  
AUSTIN, Tex. —In looking forward to the 57th Legislature, speculation now centers on (1) who will be elected the Speaker of the House and (2) who will get important Legislative committee assignments.

Speaker's race is following the pattern of two years ago. Both Rep. Wade Spilman of McAllen and Rep. James Thurman of Gopher claim sure victory. Each accuses the other of claiming votes from members that aren't actually pledged to him.

It takes votes of 76 of the 150 House members to win. Actual election takes place when the Legislature meets in January.

Committee assignments will be made at the start of the session by the Lieutenant Governor for the Senate by the newly-elected Speaker of the House.

Make-up of committees is of crucial importance since a unfavorable committee can, by delay or disapproval, bring almost sure death to a piece of legislation. Lawmakers themselves attach much personal significance to their committee assignments, usually regarding chairmanship of key committees as rungs up the political ladder.

But this year some members are saying, either jokingly or seriously, that they'd just as soon pass up top committee honors. They note a high casualty rate in the campaigns among last year's key committee members.

Among those who lost out were Sen. William Fly of Victoria, chairman of the powerful Senate finance committee; Sen. Floyd Bradshaw, member of finance and other important committees; Rep. Max Smith, vice chairman of the House state affairs committee; Rep. Frates Seeligion, vice chairman of House revenue and taxation committee.

Leadership can have a high price tag, one member observed. "Some of those committees, like state affairs or taxation, get nothing but hot potatoes. You make a batch of enemies with every bill." BEACH SUIT FILED—Attorney General Will Wilson has joined Nueces County officials in getting a court order to stop barricading of beaches on Padre Island by private landowners.

Action stems from the open beach bill passed by the legislature last summer. This law, hotly debated, affirmed public

ownership of beaches and guaranteed public access to them. Padre Island Land and Development Co., which put up the barricades, claims property rights up to the water's edge as a result of a Spanish land grant.

Another suit has been filed at Galveston where a similar situation developed.

Final decision on who can go swimming where will hinge on court interpretation of the law.

TIDELANDS STUDY URGED — Jerry Sadler, Democratic nominee for land commissioner, has suggested that careful study should be made to determine what action the next Legislature should take to insure legal land orderly development of Texas tidelands.

Sadler suggested that state should chart its course carefully to avoid the possibility of any more difficulties in the management of its submerged lands. Recent U. S. Supreme Court ruling that state ownership extends 10 1/2 miles from the shoreline ended a 15 year tidelands battle.

First thing, said Sadler, will be to settle by law where the shoreline is so the tidelands boundary can be established in relation to it. Also, the boundary between Texas and Louisiana coastlines will have to be definitely determined. Court decreed Louisiana owned tidelands for only three miles out.

DON'T FENCE US OUT—You can ride horseback to your heart's content in the Davis Mountains State Park, but be sure to close the gate as you come and go.

This is the gist of a State Supreme Court ruling in a case which pitted the State Parks Board against the owners of grazing rights in the Davis Park.

State has a long-term lease on the land for park use with grazing rights reserved by the

THE HAMLIN HERALD

Thursday, June 16, 1960

landowners. Owners declared public horseback riding in the 1,340 acre area interfered with grazing and padlocked the gates. Parks Board contended the riding was a legitimate park use to which the public was entitled.

Supreme Court agreed, but added that some safeguards should be set up so that the grazing cattle wouldn't be let loose. High court sent the case back to the local district court for the writing of specific directives.

EMPLOYMENT HITS PEAK—Employment in Texas hit an all-time high this spring with 3,454,000 jobholders, Texas Employment Commission announced.

High point was hit in April. Part of it was attributed to usual good-weather pickup in farm and construction, part of it to industrial expansion.

A further increase in farm employment is forecast as planting, irrigating and cultivating work gets into full swing.

Non-arm employment rose by 32,000 between March and

April, hitting a total of some 3,053,100.

YEAR TO REMEMBER— An historic Texas date, 1836, will be used on the road signs in San Jacinto State Park.

Approximately 6.5 miles of roadway will be marked Park Road 1836. It will run from a junction with State Highway 34 and will include all state-maintained road sections within the limits of San Jacinto State Park near Houston.

SHORT SNORTS — Joe G. Moore Jr., of Austin has been appointed secretary and research director for the State Finance Advisory Commission. Moore was at one time a research assistant for the Texas Legislative Council, helping in a study of state tax laws. Next meeting of the Commission, appointed by the governor to study state finances and make tax recommendations, is set for Friday, June 17. Texas draft quota for July will be 200 men, State Selective Service Headquarters has announced. In addition, local boards have been asked to send up a proximately 1,000 men for pre-induction exams.

## 'WHEN COMEDY WAS KING' STARTS SUNDAY AT FERGUSON

With so many of today's films made in color the phrase "the silver screen" has gone the way of the extinct dodo. But in the old days of silent, voiceless black and white motion picture "silver screen" was an expression that writers used with a certain breathlessness. There was a magic to it as there was a magical, unreal quality to the "shadows" that flickered over the screen.

There were several types of movies made in those early days. There were tender romances—for instance, Romeo made love to Juliet with oversized gestures and an occasional sub-title from Shakespeare. And there were spectacles—big, big pictures. The legendary Cecil B. DeMille, for example, produced a total of 20 commandments, 10 silent and 10 in the medium as it is today.

But mostly the product of the infant industry was connected to make audiences laugh. Custard pies were baked and thrown in gross lots. Keystone Kops leaped and ran comically. Bathing beauties posed alluringly. Mack Sennett reigned as director, writer and producer of dozens of "laff riots."

These facts are the bases for "When Comedy Was King," a 20th Century - Fox feature coming Sunday to the Ferguson Theatre.

"When Comedy Was King," written and produced by Robert Youngston, is a screen anthology of the comedians who capered across the silver screen in the pre-CinemaScope era. It retrieves from the archives and the film vaults such stars as Roscoe "Fatty" Arbuckle, Mable Normand, Gloria Swanson and permits another moment of glory.

If you've never seen Charlie Chase - he's back in "When Comedy Was King." Will Rogers, a strangely handsome young man with an unsmiling face named Buster Keaton are both back.

Remember Wallace Beery. Did you know that there was no one better than he in the old days for foreclosing mortgages on poor but beautiful widows? And the man with the cane, derby and baggy pants, he's there, too, Charlie Chaplin.

## Revised Standards For Grading Set by USDA June 19

Revised standards for grades of live slaughter lambs, yearlings and sheep will become effective June 19, the USDA announces.

Changes made in the standards are similar in nature to those adopted for lamb, yearling mutton and mutton carcasses on March 1.

USDA market news reports for live lambs and sheep have been on the basis of the revised standards since March 1. Closely related grades for slaughter animals and the resulting carcasses are essential to meaningful market reports.

Both conformation and quality requirements for the prime under the new standards.

Minimum conformation requirements are lowered by about one-half grade in each of these grades. Quality requirements, as evaluated primarily by considering external fat in relation to the age of the animal, are reduced from about one-half grade to as much as a full grade, depending upon the grade and age of the animal.

Copies of the standards may

## CELOTEX CORPORATION SALES DOWN FOR FIRST SIX MONTHS

CHICAGO—Sales of the Celotex Corporation for the six months ended April 30, 1960 were \$30,192,857 and net income, after applicable credit for Federal income taxes, amounted to \$306,198. Henry W. Collins, president, stated in his report to shareholders today.

This compares with sales of \$34,325,515 and earnings of \$1,629,020 for the corresponding period a year ago. After preferred dividend requirements, earnings for the six months ended April 30, 1960 amounted to 17 cents per share on the 1,028,651 shares of common stock outstanding as compared with \$1.45 a year ago.

Mr. Collins said that "the lower level of sales for the first half of our year resulted principally from a drop of approximately 19 per cent in housing starts from the like period a year ago and from curtailed construction stemming from severely inclement weather during February and March."

"While these factors had an adverse effect on earnings, profits were further depressed by increases in labor rates, by break-in and other expenses incident to our operations at Anse, Michigan, and by the increased competitive conditions which brought about lower prices for many of our products."

He further told shareholders that "since we believe that general construction activity will improve, our efforts in connection with sales, advertising and research were not curtailed."

### 'The Secret World Of Eddie Hodges' On TV June 23

Bert Lahr and Margaret Hamilton have joined Eddie Hodges, Jackie Gleason, Boris Karloff, Janis Page and Hugh O'Brian in the starring cast of "The Secret World of Eddie Hodges," an hour-long musical comedy special, Thursday, June 23 from 9 to 10 p.m. on KPAR-TV Sweetwater.

The program will be presented in this area by Lone Star Gas Company and is sponsored by the American Gas Association in cooperation with the Whirlpool Corp.

On the program Eddie Hodges appears as a boy whose imagination brings him in contact with his heroes and heroines. In Eddie's secret world, Bert Lahr portrays a postman who teaches Eddie an old-

time vaudeville routine. Margaret Hamilton plays "mean old Miss Grundy," a lady who objects when Eddie's baseball enters her living room through a closed window.

Young Eddie Hodges rose to fame in the Broadway hit "The Music Man," and has starred on television in such programs as "Holiday, U. S. A." and in the film, "A Hole in the Head." Commercials on the special.

tacular will feature the RCA Whirlpool gas refrigerator, a development described by Whirlpool Corp. officials as the product of two-years \$20-million research and development.

The opossum has lived in America for 80 million years even outliving the dinosaurs.

## TRAFFIC HINTS

by J. L. McCurdy  
chief of police

I have had inquiries about a number of things that the general public seems to be in doubt. I will list them below try to answer them for you to the best of my knowledge.

They are as follows:

1. Am I allowed to make a right turn on a red light after coming to a complete stop and waiting until traffic is clear?

A. That used to be allowed in many cities, but it is now a violation of the state law, unless there is a sign on the light stating that you may do so.

2. How far am I allowed to park from a curb?

A. You are allowed to park with your right wheels not over 18 inches from the curb and within the designated parking lines.

3. Is my child allowed to drive if I or another person with a valid operators license is sitting in the front seat?

A. NO, not unless he or she is at least 14 years of age and has either a beginners or valid operators license.

4. Is my child allowed to operate a motor scooter?

A. Not unless he or she is at least 14 years of age and has an operators license to operate a motorcycle or motor scooter not to exceed 5 brake horse power. The scooter must also have a Texas license plate.

5. Is it against the law to "Joy Walk?"

A. All large cities have a city ordinance making it a violation to "Joy Walk." However, in the smaller cities that do not have this ordinance, you would be very wise to refrain from this dangerous practice.

The state law provides that the operator of a motor vehicle must yield right of way to a pedestrian who is walking in a designated walk-way. Should you be struck by a motor vehicle while "Joy Walking", the operator of said motor vehicle would not be held responsible unless he or she was driving in a reckless manner, and his insurance company would not be liable for any injuries sustained by you.

6. Am I allowed to make a "T" turn at an intersection controlled by a traffic light?

A. Under no conditions are you allowed to make a "T" turn at an intersection controlled by a traffic light. This same rule applies to making a "U" turn anywhere in the block except at an intersection that is not controlled by a traffic light, unless otherwise designated.

Let's help each other to live longer by obeying all of the traffic laws.

U MINH, Vietnam — So precious are the CARE agricultural tool packages given to this village, the people set up a lending system: a man can borrow only one tool at a time, must return it to the village warehouse before he can borrow another. CARE donors in the U. S. contributed the cost of the implements, which are helping 1,500 North Vietnamese refugees start a new community on the edge of the pungle, about 115 miles southwest of Saigon.

# BLIND BECAUSE OTHERS WON'T SEE!

A simple thing, like ignoring a traffic light, can bring tragedy. Every day we injure, cripple, maim and kill thousands because drivers won't obey laws made for their own protection. That's the ugly truth behind 90% of all traffic accidents. You can help stop this senseless butchery. Drive more carefully. Stick to the rules. See that others do, too. Where traffic laws are strictly obeyed, accidents go down!

Support your local Safety Council

#### WE MUST FACE THESE FACTS

Last year, traffic accidents injured 1,400,000—disabled them beyond the day of the accident. Millions more suffered the pain and misery of "minor" injuries. 150,000 were children, 5 to 14.

Last year, traffic accidents killed nearly 38,000! 2,500 were children of grammar school age. And this year an INCREASE in deaths is threatened!

How long must this go on? YOU—the men and women behind the wheel—can answer this. Because YOU are the No. 1 cause!

# W. WAINSCOTT BECOMES ILL AT REUNION IN FREEPORT

MRS. ELMER JOINER, wife of W. M. U. of the Fair Baptist Church met last day, June 7, with Mrs. E. Combs. Seven members present and the program given on educating youth missions. Next meeting with Mrs. Winston Gray. G. W. Waincott became ill while in Freeport family reunion. He spent days in the hospital there, flown home and was hospitalized one day. He found would have to undergo surgery which was scheduled for day morning. Mr. Waincott will be 90 years old next but is still very active in his years.

Mr. and Mrs. Isach Holmes and Mrs. Abernathy spent several days with Mr. Waincott and Mr. Ehel Allen. Mr. Holm returned home Sunday but she remained here for her father's surgery.

Trouble always seems to come double in some families and it certainly is so with the Waincotts. George has been fighting an attack of gall bladder trouble for some time and at this time his plans are to have surgery in the next few days.

Mr. and Mrs. O. L. Jenkins were visited Thursday night by their son and family, Rev. John C. Jenkins, his wife, Jana and Jarrel. John is pastor of the Woodrow church on the South Plains in the Lubbock vicinity.

Mr. and Mrs. W. W. Goodwin and Mr. and Mrs. Elmer Roddy went to Lueders Friday night to eat supper and attend the program at the camp fire camp. They brought their daughters, Linda Goodwin and Sue Roddy home. A good time for the week was reported.

Mrs. Ernest Henry returned home Saturday from Oklahoma City, where she had spent two weeks visiting her son.

Visiting at Fairview Sunday morning were Mr. Roy Watts and Robert George.

The Rev. Doyle Combs family visited in the George Waincott home Saturday night.

Mr. and Mrs. R. M. Jones spent the week-end in Abilene with their son's family, Mr. and Mrs. Rex Jones and Mark. Rex came after them as his father is not able to drive that distance.

Mrs. Lura Lovvorn of Stamford visited last week-end with her son, John Beauchamp and family.

Mr. and Mrs. Winston Gray visited at Clyde Tuesday night with Mr. and Mrs. Wiley Lopez.

# New 3¾% interest on U.S. Savings Bonds

The Treasury explains why the new ones you buy and the ones you own now are better than ever

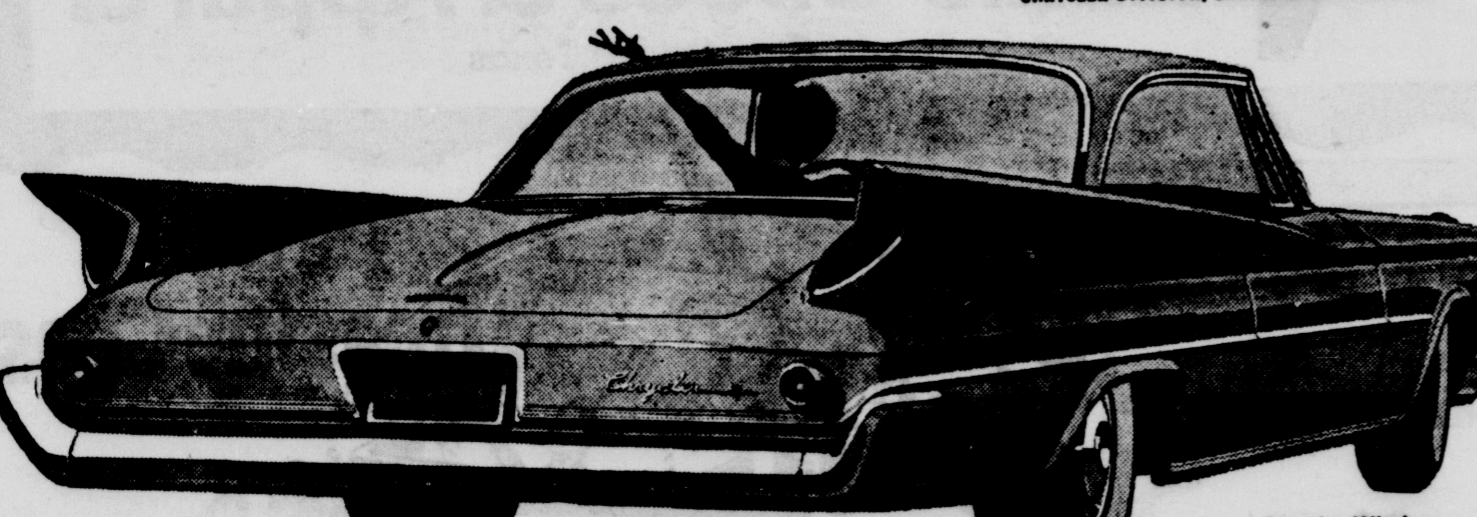

- Q: How does the new 3¾% interest rate benefit me?
- A: With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.
- With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to 2¼% for the first year and a half; then a guaranteed 4% each year to maturity.
- Q: When did the new rate become effective?
- A: June 1, 1959.
- Q: Does the new rate change the Bonds I bought before June 1, 1959?
- A: All older E and H Bonds pay more now—an extra ½% from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.
- Q: Will the Bonds I own automatically earn their new rate?
- A: Yes. You don't need to do a thing—just hold on to your Bonds.
- Q: When my E Bonds mature, will they keep on earning interest?
- A: Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.
- Q: With the new interest rate, should I cash in my old Bonds and buy new ones?
- A: No. The automatic ½% increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.
- Q: How safe are U.S. Savings Bonds?
- A: Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.
- Q: What if my Bonds should be lost, stolen or destroyed?
- A: You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.
- Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?
- A: Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

# DIAL TELEPHONES

## are being installed in Hamlin

**PLEASE DO NOT USE THE DIAL NOW**

DIALS are being installed on telephones here in preparation for the change to the new dial system.

In the meantime, of course, we will be busy installing the dial equipment in the new building addition.

When the dial is installed on your telephone, please remember these two things:

1. **Continue to give your calls to the operator**—just as you have in the past.
2. **Do not turn the dial while telephoning**—this may disconnect you from the person you are talking to.

Installation of dials on telephones here is another step toward the day when your dial system will be placed in service.

We'll let you know when the new system is completed and the dial on your telephone is ready for use.
